

The Problem with Mosquitoes

Mosquitoes don't just take the fun out of time outdoors...they pose a serious health risk, spreading diseases like Zika, West Nile and chikungunya viruses.

Reclaim your customers' outdoor spaces with treatments that address every stage of the life cycle, including larvicides, such as Altosid® Pro-G Insect Growth Regulator, which prevent mosquito populations from growing, and insecticides, such as Lambda 9.7 CS, which provide customers with the immediate relief they seek.

Integrated Mosquito Management

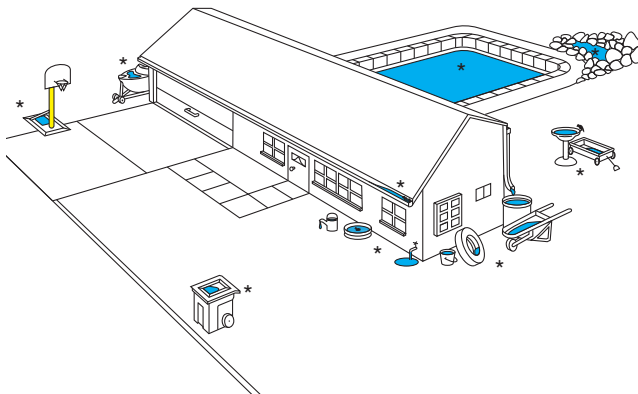

Endorsed by the Centers for Disease Control, employing **integrated mosquito management** methods is the only way to ensure that mosquito populations are effectively controlled. Successful programs are designed to **attack mosquitoes at each stage of their life cycle**. Larvicide treatments prevent the emergence of breeding, biting adult mosquitoes while insecticide treatments quickly knock down and kill nuisance adults.

Reduce Your Risk: Eliminate Breeding Areas

Here are things you can do in and around your home to help reduce the number of mosquitoes in your area:

- * Mosquitoes breed and lay their eggs in standing water, so dispose of old tires, buckets, planters and other containers in your yard that may collect water.
- * Empty standing water from all containers on your property, including birdbaths, at least once a week. Fill in tree rot holes and hollow stumps that hold water.
- * Clean clogged roof gutters
- * Drill holes into the bottom of tire swings
- * Make sure all windows in your home have screens in place; repair any holds or tears in screens

Mosquito Control Solutions for Pest Management Professionals

(OFFER YOUR CUSTOMERS A SUMMER GETAWAY FROM MOSQUITOES)

larvicides provide residual control and prevent mosquito larvae from becoming breeding, biting adults

Altosid® Pro-G Insect Growth Regulator

- For use in standing water
- Granular formulation for hard-to-treat areas
- Contains (S)-methoprene, a proven Insect Growth Regulator
- Provides up to 30 days of control
- Available in 2.5 lb and 10 oz containers

Altosid® Briquets

- For use in standing water
- Contains (S)-methoprene, a proven Insect Growth Regulator
- Slow release to control larvae up to 30 days
- Available in a 100 count pack

Altosid® XR Extended Residual Briquets

- For use in standing water
- Formulated to ensure consistent release of active ingredient for up to 150 days of control
- Consistent release of IGR active ingredient provides season-long control
- Controls multiple broods of mosquito larvae to inhibit the spread of adult mosquito populations
- Available in 4 x 10 count packs

Altosid® Liquid Larvicide Mosquito Growth Regulator

- Ready-to-use liquid formula
- Proven control of mosquito species known to transmit Zika virus, West Nile virus, chikungunya, and dengue fever
- Approved for a wide variety of application sites
- Use a ULV machine to apply 3-4 fluid ounces per acre
- Available in an 16 oz container

sprayer size	low rate/gal	high rate/gal
1 gal	2.0 ml	2.7 ml
3 gal	6.1 ml	8.1 ml
5 gal	10.2 ml	13.6 ml
30 gal	61.1 ml	118.3 ml

Note: Solutions are measured in increments of gal/ml of Altosid® Liquid Larvicide Mosquito Growth Regulator/1,000 sq. ft.

residuals provide immediate relief

Mavrik® Perimeter

- Features tau-fluvalinate, a broad-spectrum insecticide
- Provides knockdown of a variety of insects including mosquitoes and ants
- For use as a perimeter treatment around buildings and outside surfaces
- Dried residues are non-toxic and non-repellent to honeybees
- No visible residue or lingering odor
- Available in an 8 oz container

Essentria® IC-3 Insecticide Concentrate

- FIFRA 25(b) exempt botanical insecticide
- No pyrethroid restrictions
- Effective barrier treatment for a broad-spectrum of flying and crawling insects, including adult mosquitoes
- Available in 2 oz, 1 qt and 1 gal containers

Lambda 9.7 CS

- Provides knockdown of adult mosquitoes
- Features lambda-cyhalothrin, a broad-spectrum insecticide
- Perimeter and barrier treatment
- Approved for lawns, turfgrass, and ornamentals
- No phytotoxicity
- Surface spray, crack-and-crevice and spot applications
- Available in a 1 qt container
